INTRODUCTION

The Revenue Canada Summary Report is published yearly by The Yukon Government, Bureau of Statistics. Data presented were derived from the most current available statistics released by Revenue Canada.

Data in sections 1 and 3 were taken from an annual publication entitled, Revenue Canada Taxation Statistics. The information in this publication is based on a sample set of returns. Data in sections 2 and 4 were based on 100% coverage and were taken from Revenue Canada Detailed Locality Tables. The data in sections 5 and 6 represent a deflated version of sections 3 and 4, respectively. **In some cases entries may not sum to marginal totals due to independent random rounding.**

This report is subdivided into three main parts. Part A analyzes data from the 1984 tax year and compares the Yukon and Canada in Section 1 and highlights the Yukon in Section 2. Part B provides a time series analysis (1974-1984) highlighting the Yukon in Section 3 and selected Yukon communities in Section 4. Part C analyzes changes in real income between 1974 and 1984 in the Yukon (Section 5) and in selected Yukon communities (Section 6).

Data presented in Sections 3 and 4 are deflated to the base year 1975 using the 1985 Consumer Price Index. Income values are deflated to control for such extraneous factors as inflation, thereby, enabling a realistic comparison of average income over time.

Revenue Canada is the most comprehensive source of income data, released on a yearly basis, for the Yukon and its communities. The following report is an excellent source of data for policy makers evaluating income related topics.

PART A

SECTION 1 - YUKON AND CANADA (1985)

SECTION 2 - YUKON AND SELECTED COMMUNITIES (1985)

HIGHLIGHTS - SECTION 1

*The average income in the Yukon for 1985 ($20,162) was 4.0% higher than that for Canada ($19,387).

*The average income for males in the Yukon ($24,637) was 60.5% higher than for females ($15,352). Average income for males for Canada as a whole was 93.0% more than females.

*In 1985 business employees were the single largest occupation group in the Yukon (5,686) with an average income of $19,367 compared to $21,333 for Canada.

*The highest average income in 1985 was earned by the Professionals occupation group, with $28,241 for the Yukon and $52,352 for Canada as a whole.

*In 1985 the largest percentage of returns in both the Yukon (33.2%) and Canada (35.6%) are in the less than $10,000 category. The income distribution pattern for the Yukon is quite different than that for Canada. The Yukon pattern is characterized by fewer filers earning less than $20,000 and more earning greater than or equal to $30,000. For Canada the opposite pattern is true.

*In 1985 wages and salaries represented 81.9% of all income for the Yukon and 72.8% for Canada.

*Unemployment Insurance benefits represent the single largest component of transfer payments for the Yukon, contributing 6.0% to income, compared to 1.7% for Canada.

HIGHLIGHTS - SECTION 2

*In 1985, Faro had the highest average income ($24,006) at 21.4% above the Yukon average ($19,768).

*Whitehorse registered the second highest average income ($21,115) in 1985, at 6.8% above the Yukon average.

*For the income category greater than or equal to $40,000 Faro had the largest relative proportion of returns (21.3%), followed by Whitehorse (12.8%) and Dawson City (8.7%).

*In 1985 73.3% of all returns filed in the Yukon originated from Whitehorse.

PART B

SECTION 3 - YUKON (1975-1985)

SECTION 4 - YUKON & SELECTED COMMUNITIES (1980-1985)

HIGHLIGHTS - SECTION 3

*For the period 1975-1985 the average income in the Yukon increased from $10,634 to $20,162. The average income for females increased from $6,574 to $15,352 while the average income for males increased from $14,326 to $24,367.

*The average income for pensioners showed the largest increase rising from $4,248 in 1975 to $13,294 in 1985 a 213% increase.

*In 1975, 4.7% of Taxable Returns in the Yukon were in the greater than or equal to $25,000 category, compared with 39.7% in 1985.

*Wages and salaries remained the dominant source of income for the Yukon for the period 1975-1985; however, its percentage of income dropped from 88.1% in 1975 to 81.9% in 1985. Transfer payments marked the largest percentage increase rising from 6.1% of income in 1975 to 8.8% in 1985.

Note: Due to extraneous factors (i.e. inflation) increases in average income do not represent an increase in real income.

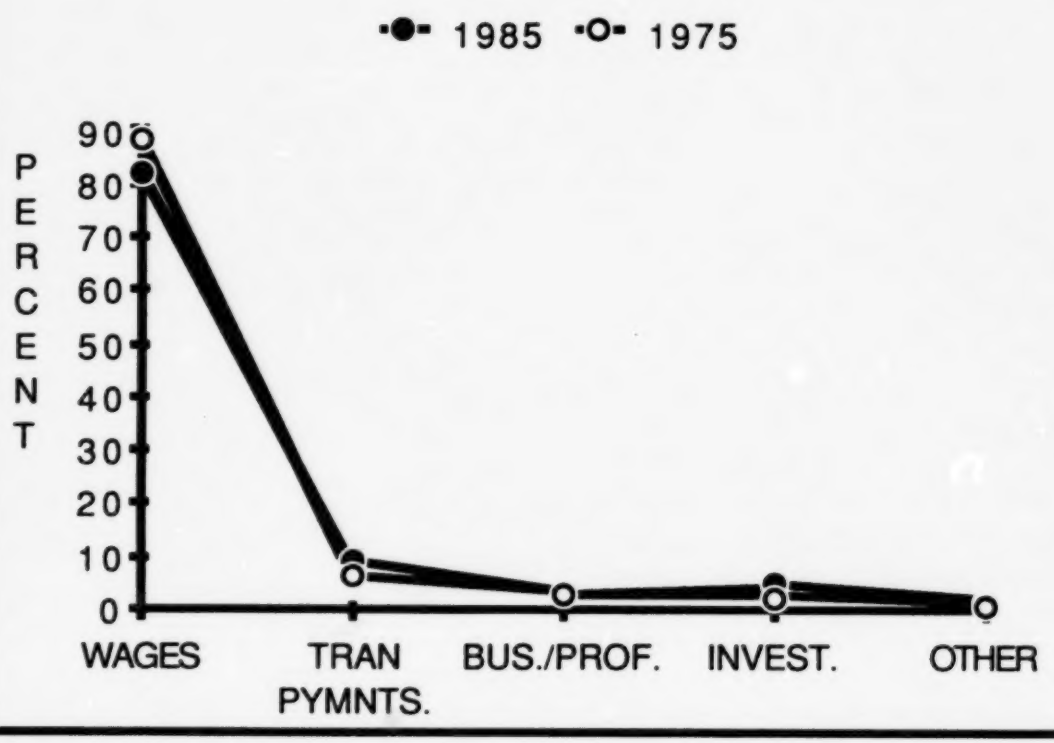
SOURCE OF INCOME, ALL RETURNS BY PERCENT, THE YUKON



HIGHLIGHTS - SECTION 4

*For the period 1980-1985 the average income in the Yukon increased from $15,563 to $19,768.

*Faro maintained the highest average income in the Yukon between 1980 and 1985, but it should be noted that a major drop occurred from 1981 to 1982 ($27,228 to $22,583) then began to rise again in 1983.

*The number of returns increased yearly for the period 1980-1981 (14,359 to 15,130) and then decreased in 1982 (13,904) and 1983 (13,373) then began to rise again in 1984 (13,919).

PART C

SECTION 5 - YUKON (1975-1985), IN 1975 DOLLARS

SECTION 6- YUKON & SELECTED COMMUNITIES (1975-1985), IN 1975 DOLLARS

HIGHLIGHTS - SECTION 5

*Average income in the Yukon decreased from $10,634 in 1975 to $9,223 in 1985 (this represents a real decrease of 13.3%).

*The average income for females increased from $6,574 in 1975 to $7,023 in 1985, an increase in real income of 6.8%. For the period 1976 to 1984 the average income dropped from a high of $7,109 to $6,871 a decrease in real income of 3.5%.

*For males, average income fluctuated from a low of $13,789 in 1976 to a high of $14,912 in 1980 (8.1% increase in real income). In 1985 average income dropped significantly from $14,912 in 1980 to $11,217 (-32.3%).

*The Business Propr. occupation group registered the largest decrease in real income from $9,178 in 1975 to $5,331 in 1985 (-41.9%). The gap between professionals and other occupation groups has narrowed significantly during this period. In contrast, pensioners registered the largest increase in real income (43.1%), rising from $4,248 in 1975 to $6,081 in 1985.

*Wages and salaries, as a percentage of income for the Yukon, have fallen from 88.1% in 1974 to 81.9% in 1985. Transfer Payments has shown the largest increase rising from 6.1% of income in 1975 to 8.8% in 1985.
